perceive the film takes (whether by its writer and/or its director), is an interpretation of its ideological meaning.  
Many films are overt attempts by their filmmakers to persuade audiences to their points of view. Others are  
more interested in raising various issues for audiences to think about.

### **Film Theory & Approaches to Criticism**

In film music it was found that an audience could be influenced into buying the character or mood state of an  
actor "rather than simply of a scene and its overall mood" if a theme, ballad, or motif was connected to the  
actor and repeated over and over, with tonal variations, no matter what the context.

### **The 25 Best Films Directed By Women of the 21st Century**

Most film productions tend to spend a lot of time shooting a relatively narrow range of subject matter. "One Day on Earth" takes a slightly different approach. "Think globally, film locally" could be the motto for "Earth," a crowd-sourced film project originally founded to document a single 24-hour period with video snapshots from around the world.
