A mental disorder, also called a mental illness or psychiatric disorder, is a behavioral or mental pattern that causes significant distress or impairment of personal functioning. Such features may be persistent, relapsing and remitting, or occur as a single episode. Many disorders have been described, with signs and symptoms that vary widely between specific disorders.

Background: Many Nigerians have misconceptions and misbeliefs about mental illness, hence stigmatize people with mental illness. This scoping review on the knowledge of and attitude towards mental illness among Nigerians aims to identify the extent of literature on the issue, summarize current reports and identify research gaps in hopes to proffer workable solutions to this problem.
