Helping Rural Battered Women and Their Children

women's abuse of their children can be seen as a consequence of their own experiences of domestic violence. The findings nonetheless suggest that abused women have agency, and therefore have responsibilities when they chose to use violence towards their children. The paper also considers the feelings of guilt and blame that tend to arise

Women's abuse of their children in the context on domestic

adjustment. One hundred and twenty women and their children between the ages of 7 and 12 participated. Results supported an ecological model of the impact of domestic violence on women and children. The model predicted 40% of the variance in children's adjustment, 8% of parenting style, 43%

Parenting in Battered Women: The Effects of Domestic

the expense of shelters and housing for abused women and their children; and the overall cost to the community for therapeutic services to the victim, the batterer, the children, and the family unit. Relationship to Child Abuse The relationship of spouse battering to child abuse is a strong one. One study showed that
