

beacon lights of history pdf

A beacon is an intentionally conspicuous device designed to attract attention to a specific location.. Beacons can also be combined with semaphoric or other indicators to provide important information, such as the status of an airport, by the colour and rotational pattern of its airport beacon, or of pending weather as indicated on a weather beacon mounted at the top of a tall building or ...

Beacon - Wikipedia

An airway beacon was a rotating light assembly mounted atop a tower. These were once used extensively in the United States for visual navigation by airplane pilots along a specified airway corridor. Approximately 1,500 airway beacons were constructed to guide pilots from city to city, covering 18,000 miles (29,000 km). Most of the beacons are gone, but the State of Montana continues to maintain ...
