The trick is to learn how to listen to yourself in a certain way so that you can change your beliefs from automatic to conscious. This takes them from the ~unconscious~ (subconscious) part of our mind directly into our conscious and aware mind where we then can ~look them in the face~ and decide if they are welcome in our lives.

Belief is the state of mind in which a person thinks something to be the case with or without there being empirical evidence to prove that something is the case with factual certainty. Another way of defining belief sees it as a mental representation of an attitude positively oriented towards the likelihood of something being true. In the context of Ancient Greek thought, two related concepts ...
