Blood Pressure Protocol has been created during a time in which general levels of fitness are constantly plummeting and obesity soaring. It is a comorbidity of obesity, as well as being related to the stress often associated with the modern world. Also known as hypertension, high blood pressure is experienced by a staggering one billion people globally.

Blood Glucose Homeostasis Glucose is the transport carbohydrate in animals, and its concentration in the blood affects every cell in the body. Its concentration is therefore strictly controlled within the range 0.8 - 1g per dm³ of blood, and very low levels (hypoglycaemia) or very high levels (hyperglycaemia) are both serious and can lead to death.

Blood brother can refer to one of two things: a male related by birth, or two or more men not related by birth who have sworn loyalty to each other. This is in modern times usually done in a ceremony, known as a blood oath, where each person makes a small cut, usually on a finger, hand or the forearm, and then the two cuts are pressed together and bound, the idea being that each person's blood ...

Blood transfusion is generally the process of receiving blood or blood products into one's circulation intravenously. Transfusions are used for various medical conditions to replace lost components of the blood. Early transfusions used whole blood, but modern medical practice commonly uses only components of the blood, such as red blood cells, white blood cells, plasma, clotting factors, and ...
