The evolutionary emergence of language in the human species has been a subject of speculation for several centuries. The topic is difficult to study because of the lack of direct evidence. Consequently, scholars wishing to study the origins of language must draw inferences from other kinds of evidence such as the fossil record, archaeological evidence, contemporary language diversity, studies ...

One of the Greatest Monuments in the World but Who Built

Chinese architecture demonstrates an architectural style that developed over millennia in China, before spreading out to influence architecture all throughout East Asia. Since the solidification of the style in the early imperial period, the structural principles of Chinese architecture have remained largely unchanged, the main changes being only the decorative details.
