They build integrated global production networks, not collections of disjointed factories that are spread internationally. Thus their investment in manufacturing abroad is not a substitute for investment at home, it is a complement. Building and managing such integrated global factor networks is the next challenge in manufacturing.

The global spread of highly pathogenic H5N1 influenza in birds is considered a significant pandemic threat.. While other H5N1 influenza strains are known, they are significantly different from a current, highly pathogenic H5N1 strain on a genetic level, making the global spread of this new strain unprecedented. The H5N1 strain is a fast-mutating, highly pathogenic avian influenza virus (HPAI ...

Among all the criticisms of the global spread of English, Phillipson's (1992) Linguistic Imperialism is one of the most influential and controversial works in which he critiques the causes and impact of English spread. He claims to uncover a conspiracy behind the global spread of English and English language teaching.
